Apr 19, 2019 · Archaeology involves the analysis and exploration of past cultures. By looking at past cultures (Western, Asian, Indigenous, etc.), we can learn about how they lived and how they understood the meaning of life. The interesting parts about archaeology (to me, at least) are the parts that reveal insights about ourselves.

This is indeed what the research suggests. Not only do members of more collectivistic cultures tend to have lower self-concept clarity, that clarity is also less strongly related to their self-esteem compared with those from more individualistic cultures (Campbell et al., 1996).

The Great Game: The Struggle for Empire in Central Asia
This is the flavor of the book. There is no pretense to making a larger point other than the obvious ones: clash of cultures, the mind of the adventurer, 19th century imperialism, the methods of exploration. This is a good thing. In fact, the only criticism is the huge number of stories. No part is too long or drags.
